# 1 Background

ni database solutions has set up an evaluation system for CIRCABC - Communication and Information Resource Centre for Administrations, Businesses and Citizens. This document describes the modifications of the evaluation system that have been done. I.E. An imprint has been added because it is required by German laws.

## 2 Overview

Here is a short overview of all modifications.

- exchanged the header logo
- removed the part of the original logo in the head navigation
- changed the link for the “Important legal notice”
- changed the links and link descriptions in the head navigation
- modified the background colour of the head navigation
- changed the email address in the “Contact” link
- changed the link for “Search on EUROPA” to an imprint link
- added an imprint page
- changed all appearance of the support email address
- changed the text for the privacy statement on the register page
- built a new page for privacy statement (Term of Use, Nutzungsbedingungen)

## 3 Modifications

### 3.1 Header

## 3.1 Header

### 3.1.1 Logo

The header logo has been exchanged.

### 3.1.2 Logo Part in the Head Navigation

On the left side of the head navigation is a part of the header logo. It has been removed in the modified version.

### 3.1.3 Links in the the Head Navigation

The links in the head navigation to “EUROPA” and “European Commission” has been changed to links which refer to the homepage and the circa support page of ni database solutions.

### 3.1.4 Background colour of head navigation

The background colour of the head navigation has been modified to better fit the corporate identity of ni database solutions.

### 3.1.5 Link for “Important legal notice”

The original link refers to a page at the European Commission. The modified link refers to the Privacy Statement. (Which also has been modified.)

### 3.1.6 Email Address in the “Contact” Link

The original link refers to the CIRCABC support email address of the European Commission. In the modified version it refers to the CIRCA support email address of ni database solutions.

### 3.1.7 Changed “Search on EUROPA” Link to Imprint Link

Due to German laws we needed an imprint. Because the link to “Search on EUROPA” is not necessary on our system, we decided to place the imprint link here. The imprint link does not support multi-language at this time, so you will see “Impressum” in all languages.

## 3.2 Changed support email address

All appearance of the support email address in the translation files has been changed. Support requests should go to our support email address, not to the email address of the European Commission.

## 3.3 Text for the Privacy Statement on the Register Page

On the bottom of the register page above the “Register” button is a text for and a link to the privacy statement. The text has been modified to better fit German laws. It now informs about the terms of use. The text is only available in German at this time. (terms of use in German: Nutzungsbedingungen)

## 3.4 Page for Terms of Use

We built a new page for the privacy statement, now it contains the terms of use. The privacy statement is now part of the terms of use. At this time this page is only available in German.

We decided to build a new privacy statement page instead of creating a completely new page

### 3.4 Page for Terms of Use

because this had entailed that we had to change the links to the privacy statement.

### 3.5 Created an Imprint Page

A page for the imprint has been created and added to CIRCABC. The imprint is only available in German at this time.

## 4 Questions

If you have any questions about this document, please contact the CIRCA support at ni database solutions. Please refer to this document in the subject.
